

ActivateSubscriber

```
graph BT; DCB[DefaultComboBoxBehavior] --> AS[ActivateSubscriber]; TIB[TextInputBehavior] --> AS;
```

A UML diagram showing a class hierarchy. At the top is a box labeled 'ActivateSubscriber'. Below it are two boxes: 'DefaultComboBoxBehavior' on the left and 'TextInputBehavior' on the right. A horizontal line connects the two bottom boxes, and a vertical arrow points from the center of this line up to the bottom of the 'ActivateSubscriber' box, indicating that both 'DefaultComboBoxBehavior' and 'TextInputBehavior' inherit from 'ActivateSubscriber'.

DefaultComboBoxBehavior
