

DragSubject

```
classDiagram
    class DragSubject
    class DragManager
    class ListBox
    DragManager --|> DragSubject
    ListBox --|> DragSubject
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'DragSubject'. Below it, a horizontal line connects two boxes: 'DragManager' on the left and 'ListBox' on the right. From the center of this horizontal line, an arrow points vertically upwards to the bottom edge of the 'DragSubject' box, indicating that both 'DragManager' and 'ListBox' inherit from 'DragSubject'.
