

KeyStateSubscriber

```
graph BT; TestClass --> KeyStateSubscriber
```

A UML class diagram showing an inheritance relationship. The 'KeyStateSubscriber' class is represented by a white rectangle with a black border at the top. The 'TestClass' class is represented by a gray rectangle with a black border at the bottom. A solid blue arrow points from the top of 'TestClass' to the bottom of 'KeyStateSubscriber', indicating that 'TestClass' inherits from 'KeyStateSubscriber'.

TestClass
