

ComboBoxStateSubscriber

```
classDiagram
    class ComboBoxTester
    class DefaultComboBoxBehavior
    class ComboBoxStateSubscriber
    ComboBoxTester --|> ComboBoxStateSubscriber
    DefaultComboBoxBehavior --|> ComboBoxStateSubscriber
```

A UML class diagram showing inheritance. At the top is a box labeled 'ComboBoxStateSubscriber'. Below it are two boxes: 'ComboBoxTester' on the left and 'DefaultComboBoxBehavior' on the right. A horizontal line connects the two bottom boxes, with a vertical line extending upwards from its center to an arrowhead pointing at the bottom of the 'ComboBoxStateSubscriber' box. This indicates that both 'ComboBoxTester' and 'DefaultComboBoxBehavior' inherit from 'ComboBoxStateSubscriber'.

ComboBoxTester
