

DropSubject

```
classDiagram
    class DropSubject
    class DragManager
    class ListBox
    DragManager --|> DropSubject
    ListBox --|> DropSubject
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'DropSubject'. Below it are two boxes, 'DragManager' on the left and 'ListBox' on the right. A horizontal line connects the two bottom boxes, with a vertical line extending upwards from its center to the bottom of the 'DropSubject' box, ending in an arrowhead. This indicates that both 'DragManager' and 'ListBox' inherit from 'DropSubject'.
